MODERN MARVEL

# Gemini Roastery

## BY YOD GROUP

The interior, décor details and menu are tied around the coffee theme. The cafe space is decorated in the typical style of American cafe: graphite-pastel colors, laconic handmade furniture, decoration of natural materials - wood, concrete, metal, leather. The centerpiece of the interior is a bar counter, where in the evening the author's coffee cocktails are prepared. One has only to go to the bar area, as before the eyes there is a spectacular view of shelving with alcohol, which have no end - thanks to the darkened mirror on the ceiling, their magnitude is emphasized.

## ZWIN by SHOCO.

BY YOD GROUP

ZWIN & SHOCO. combines a modern confectionery-bakery and wine bar. The uniqueness of this project lies in the combination of two different formats within the same space, which work with different products independently of each other. In the design of this project used authentic materials: all wooden furniture and installations are made of oak wine barrels. Bar counter and high tabletops lined with copper. In the center of space above the bar counter is installed a large-scale installation of 32 Bordeaux barrels with the ZWIN logo. Thanks to backlighting, it attracts people's attention from the street – in the evening it is clearly visible through the front panoramic windows.
