#### YOD Design Lab Ukraine

Title: Restaurant "Stefano's Fine Food Factory" ~~~~~ 4/11 Studio "YOD Design Lab" is an active competitor of design services market in Ukraine since 2004.

As of today, it is a solid team of designers, architects, constructors and project managers. Studio numbers more than 30 successful projects in Kyiv, Kharkiv, Poltava, Rivne, Donetsk, Odessa.

Studio works mainly in the field of commercial interiors, generally hotels, restaurants, bars and cafes. Design process focuses on an individual approach to the object and the introduction of experimental art and design solutions which form the final image. Interior design is closely related to both, object and design of interior materials, so many pieces of furniture are designed individually. Building process develops new materials technology, so the design looks more like a laboratory, which formed the studio's name abbreviation. The main goal of the studio is to create an authentic object of preserving a harmonious communicational link between human and the environment.

All our facilities are implemented in Ukraine. However, our studio is interested in implementing our projects in other countries. Since 2011 we actively work on neighboring countries markets: we

#### Jon Darsky USA

Title: Del Popolo (Pizza Truck in San Francisco, CA) ~~~~ 72/75 Native New Yorker Jon Darsky has been a fan of pizza and baseball since he was a kid. The Los Angeles Dodgers win of the 1988 World Series is still important to him. If he is sometimes a little reluctant when it comes to the term Pizzaiolo—preferring the phrase dough guyinstead—it's very likely he's the only professional baseball scout turned Pizzaiolo (or dough guy) in the Bay Area.

"Stefano's Fine Food Factory" - a restaurant complex consists of an Italian cuisine restaurant, an Italian grocery shop, an oyster bar. The Italian restaurant is located in the historical part of the city, in the heart of Kiev. Object location had a considerable influence on the concept of institution. The take-away shop and the oyster bar are situated on the first floor. The stairway leading from the store to the second floor takes visitors to the restaurant with an entrance to the winter garden. The interior decoration neatly combines the Renaissance era and modern trends. After a number of experiments we found a decorative technique which we called the 'pixel classics'. This method was used in furniture details and architectural elements of wall decoration. Each dining hall in restaurant reflects the mood of each season. The hall with aquarium is done in the mood of summer. Corals and rocks inside the aquarium are true pieces of art. The oyster bar reflects the time of winter. The key element of the oyster bar interior design is the backside wall. There is an oyster shell modulus lying in the base of complicated wall structure. What makes the hall with warm autumn atmosphere unique is a huge round chandelier with 1350 incandescent light bulbs. Winter garden with an open patio represents the time of spring.
